## SCORPION RESOURCES ON THE INTERNET

[Jan Ove Rein \(C\) 2012](#)

Here I'm trying to give you a collection of links to web pages with information about and/or pictures of scorpions. I will try to keep this links updated, but "rotten links" are a large problems on the net today, and I'm therefor grateful for information about links which are "out of order". Send error messages to: [info@scorpion-research.ir](mailto:info@scorpion-research.ir)

In this main page, I will not try to list as many scorpion pages as possible, but only select high-quality web pages. A more extensive list of links can be found in the [SCORPION LINKS - PART II](#) (This page

is based on links from

[The Arachnology Homepage](#)

- By the courtesy of Herman Vanuytven)

More links will follow in the time to come ....

### GENERAL PAGES:

#### [The Scorpion Fauna](#)

Excellent scorpion information and pictures by Eric Ythier. One of the best pages on the net for quality ensured scorpion information.

The homepage is also available in [French](#) .

#### [Scorpion's World](#)

## SCORPION RESOURCES ON THE INTERNET

Written by Administrator

Saturday, 06 October 2012 11:42 - Last Updated Saturday, 06 October 2012 13:15

---

Excellent scorpion information and pictures by Anthony Thillien. The website is in French.

### [Scott Stockwell's The Scorpion Emporium](#)

The Scorpion Emporium was the first and best information resource on the Internet for many years, but have been gone for several years. Now most of it seems to have become available at Walter Reed Biosystematics Unit (I have not checked if all links work). Made by Dr. Scott Stockwell.[NB! This website probably have not been updated for many years, but much of the information is still valid!]

### [Singapore Scorpion Page](#)

A very informative scorpion page. A special section about Asian species. Made by Chua Kian Wee

### [Patrick's Scorpion Page](#)

Great scorpion information by Patrick Bultel. The page is available in french, english, german and spanish!

### [Scorpion Systematics Research Group](#)

A high-quality website concerning research on scorpion taxonomy. Hosted by the Scorpion Systematic Research Group at American Museum of Natural History.

### [REVSYS: Systematics of the scorpion family Vaejovidae](#)

A high-quality website that has a lot of information and pictures. There is a lot of general information in addition to the focus on the family Vaejovidae. This page is authored by several of the worlds leading expert lead by Lorenzo Prendini and David Sissom.

### [Arachnodata](#)

Arachnodata is the world's one and only Information- and Consulting Agency for scorpions and other arachnid animals. Run by Matt E. Braunwalder.

### [Kari's Scorpion Pages](#)

Among the content are checklists of US scorpions and a [US Check list by states](#) . Made by Kari

McWest.

### [The Spiral Burrow](#)

A very informative page with a lot of stuff. Great pictures. A lot about Australian scorpions. Made by Mark Newton

### [Scorpions of South Africa](#)

A very informative homepage about South-African scorpions with excellent photos . Made by Jonathan Leeming

### [South African scorpions](#)

A website with excellent information about and photos of S-African scorpions. Made by Iziko Museums of Cape Town

### **Skorpione.de**

Gunther Witt's excellent german scorpionsite has unfortunately been terminated..

### [The Scorpion Link Page](#)

A lot of links. Made by David Kennedy

### [SCORPIOLOGISTS' GALLERY](#)

Photo gallery of the world's scorpion researchers. Made by the Euscorpius Journal.

### [SCORPIOLOGISTS' MEMORIAL GALLERY](#)

Made by the Euscorpius Journal.

### [The Arachnology Homepage](#)

The internet's leading collection of links to arachnological resources on the net. 04.01.05: Site creator Herman Vanuytven has taken back the control of this excellent site, and has done a major update of the links.

### [The Blacklight Shop](#)

Blacklights for Locating Scorpions and Pet Stains. They also has black light tools and books.

### [Blacklightworld](#)

Sell all sorts of UV lamps. I can reccomed the 8 leds UV Headlamp, which I have used with great success.

### [Xenopus Electronix](#)

Sell a 32 leds UV MagLite flashlight (395 nm is the best for outside hunting). I have tried this flashlight in the field, and I can highly reccomend it. It works great, but a solid MagLite will also not break if you drop it, and is also a defensive tool in case of an emergency).

### [LED Flashlight-Store](#)

Many types of LED flashlight, UV light included.

### [Manga Light](#)

Many types of lamps available.
